ABOUT ME

BS Information Technology graduate specializing in Cybersecurity at the Technological Institute of the Philippines (TIP) Manila, with internship experience in software development, debugging, testing, and system maintenance. Experienced in building full-stack web, mobile, and AI-powered applications using React, Node.js, Django, Flask, Laravel, and modern database technologies. Seeking an entry-level Software Developer role.

EDUCATION

Technological Institute of the Philippines - Manila

Bachelor of Science in Information Technology

Specialization in Cybersecurity | 2022 – 2026

Dean's Lister – 1st Semester | 2022-2023

AMA University - Quezon City

Science, Technology, Engineering, and Mathematics

Senior High School | 2020 – 2022

With Honors

EXPERIENCE

SOFTWARE DEVELOPER INTERN

YouCode Technologies Corporation | FEBRUARY 2026 - APRIL 2026

- Developed the DepEd NEU Region III Event Management System, supporting its design, implementation, testing, and deployment.
- Debugged, tested, and validated application modules to improve functionality and reliability.
- Collaborated with developers in an Agile/Kanban workflow using Git for bug fixes, feature updates, code reviews, and system maintenance.

PROJECTS

KA-GABAI | Kotlin, Flask, Firebase, YOLO, TensorFlow Lite, OpenCV

- Created an Android AI-powered application for real-time object detection using YOLO and TensorFlow Lite.
- Integrated Flask backend APIs for model inference and data processing.
- Used Firebase for authentication, storage, and cloud synchronization.
- Nominated for Best Research during the academic research evaluation.**
- Bronze Awardee – Startup QC Squad 3, 2026, receiving a monetary award.**

EMS | Vue.js, Laravel, JavaScript, Axios

- Developed an event management system for DepEd NEU Region III, supporting event details, guest registration, payment tracking, and admin-side monitoring.
- Built Laravel REST APIs and integrated them with a responsive Vue.js frontend for event operations and registration workflows.

KANBAN TASK BOARD | React, Django REST Framework, PostgreSQL, GitHub OAuth

- Built a full-stack task management system with GitHub OAuth authentication and custom Kanban boards.
- Designed and implemented RESTful APIs using Django REST Framework for task and workflow management.
- Developed productivity analytics features for tracking task progress and workflow activity.

BUDGET TRACKER | React, Node.js, MongoDB, Chart.js

- Developed a personal finance web application with income/expense tracking, real-time calculations, and CRUD features.
- Built interactive Chart.js dashboards backed by REST APIs and persistent MongoDB storage.

SKILLS AND STRENGTHS

PRIMARY SKILLS

- JavaScript, Python, React, Node.js, Django, PostgreSQL, Git & GitHub

FAMILIAR WITH

- PHP, Laravel, Java, Kotlin, Ruby on Rails, MongoDB

ADDITIONAL TOOLS & TECHNOLOGIES

- Firebase, REST APIs, HTML5, CSS3, MySQL, Linux Command Line, OpenCV

PROFESSIONAL STRENGTHS

- Debugging, problem-solving, teamwork, technical communication, adaptability

LEADERSHIP & ACTIVITIES

TRAININGS

- Certificate of Completion – DepEd NEU Region III Event Management System | April 30, 2026
- National AI Student Challenge 2025 – AWS Regional LLM League | May 29, 2025
- Generative AI Camp | October 18, 2024
- Unlocking the Power of Data Science | October 03, 2025
- Across the Cyber-Verse: With Great Power Comes Great Cyber-Responsibility | October 04, 2025
- Wave of the Future: Threats, Trends, and Protective Measures in Edge Computing | October 13, 2025
- Beyond the Clouds: Learning the Art of Cloud Computing | September 19, 2025
- Blocks of the Future: Unleashing Blockchain Innovation | September 27, 2025
- IoT Revolution: Smarter Solutions for a Smarter World | September 11, 2025

ORGANIZATIONS

- AWS Cloud Club – TIP Manila
- Open Source Club – TIP Manila
- Microsoft Student Community – TIP Manila
